Williams, Chas. C., 401 S. Hope st., Los Angeles. Med. Dept. Harvard, Mass., '86. (C) '99.

New Members.

Fresno County—Fleming, Luther P., Gilreath, M. A., Hardman, C. W., Rosson, John B., Van Valkenburgh, Charles C., Weddle, Charles.

Los Angeles—Barton, Herbert P., Davis, Theo. G., Duncan, A. M., Gill, Henry Z., Richardson, W. W., Wiley, E. H., Williams, C. C. Pasadena Branch—Bleecker, J. T. Van Slyck, David B.

San Bernardino County—Power, W. B.

San Joaquin County—Olivieri, Leonida, Surryhne Benjamin F.

Shasta County—White, Sherman T.

Solano County—Arnold, C. E., Bransford, Samuel G., Hall, Lester Parker, Koltz, Bernard J., Makemson, W. S., McFarland, W. L., Miller, Harry O., Caldwell, E. J.

Yolo County—Curtis, Elliott D., Foster, E. C., Keegan, L. T., Prose, T. W.

Died.

Laidlaw, Horace, San Francisco.

Nichols, Geo. B., San Luis Obispo.

Nicholson, I. E., Oakland.

Watkins, Antionette.

NOSTRUMS ARE BEGINNING TO GET THEIR DUE.

The *Journal of the American Medical Association*, after thinking the matter over a long time, has finally decided to come out flatfooted on the side of respectability in the ranks of the profession. This official organ of the American Medical Association is setting a pace in the matter of exposing the humbuggery of those nostrum makers who pretend to be ethical and to appeal to physicians only, which medical journals conducted as commercial enterprises dare not attempt to follow. And the *Journal* is throwing consternation into the ranks of nostrum manufacturers and publishing houses by calling a spade a spade, in a manner which causes much merriment to the on-lookers and gives pleasure to those who have labored a life time to present quackery in its true light. One of the most encouraging signs of the times is the fact that the National Association of Retail Druggists at its recent Boston meeting by a special resolution endorsed the action of the American Medical Association in its "work of eliminating from the practice of pharmacy and medicine, as far as practicable, unethical, secret, and in some cases fraudulent and dangerous compounds." With the United States government and the State excise authorities taxing as liquors those nostrums which but for the alcohol in them would be practically without value; with the *Ladies' Home Journal*, *Collier's Weekly*, *Leslie's Monthly Magazine* and some of the other lay publications appealing directly to the intelligence of the public; with the CALIFORNIA STATE JOURNAL OF MEDICINE are the *Journal of the American Medical Association* showing the physicians a few things which it is worth their while to notice; and with *The Druggists' Circular*, encouraged by the enthusiasm of the new journalistic converts to redouble the efforts which it has been making for an enlightened practice of pharmacy for nearly half a century, we can repeat in conclusion what we said in the beginning, nostrums are beginning to get their due.—*The Druggists' Circular and Chemical Gazette*, Nov., 1905.

IN ALL FEVER CASES

the liberal use of the odorless solution of metallic chlorides, commercially known as "Platt's Chlorides," is recommended for disinfecting the discharges, deodorizing and refreshing the air of the sick-room, by the most eminent physicians and sanitarians, among whom are;

Dr. H. S. Orme	- - -	Ex-President, California State Board of Health.
Dr. Benjamin Lee	- - -	Secretary, Pennsylvania State Board of Health
Dr. Thomas Darlington	- - -	President, New York Board of Health
Dr. Samuel H. Durgin	- - -	Health Physician, Boston, Mass.
Dr. Heman Spalding	- - -	Chief Health Inspector, Chicago, Ill.

For disinfecting dejecta, dilute one part chlorides with 4 parts water.

For deodorizing by sprinkling and for moistening towels or cloths to be suspended in the sick-room, dilute one part chlorides with 10 parts water.

Platt's Chlorides,

The Odorless Disinfectant

A colorless liquid, sold in quart bottles only. Manufactured by Henry B. Platt, N. Y.

FORMULA A combination of the saturated solutions of Chloride Salts, proportioned as follows: Zn 40 per cent., Pb 20 per cent., Ca 15 per cent., Al 15 per cent., Mg 5 per cent., K 5 per cent.
